

CONTENT

Technical science

<i>Puchkov L.A., Kaledina N.O., Kobylkin S.S.</i>	Recessionary trends in global energy consumption.....	5
<i>Balovtsev S.V., Vorob'eva O.V.</i>	Management of production risk in coal mines on the basis of the ranking of security requirements.....	15
<i>Galiev Zh.K., Galieva N.V., Dreeva A.S.</i>	Financial and economic aspects of a company performance in diamond mining and selling.....	21
<i>Kozyrev S.A., Vlasova E.A., Sokolov A.V., Zevakin M.A.</i>	Comparative analysis and quality control of raw materials emulsion matrix.....	29
<i>Kopylov K.N., Reshetnyak S.N., Kubrin S.S.</i>	Imitating modeling of system of power supply of the extraction site of the coal mine	40
<i>Latypov D.V.</i>	Status, problems and prospects of development of mining enterprises of building materials industry	51
<i>Matveev I.A., Eremeyeva N.G., Matveev A.I., Monasterev A.M.</i>	Concentrator for beneficiation of fine gold	61
<i>Minina E.V.</i>	About the history of creation of safety lamp for coal mines.....	69
<i>Petrakova N.G., Babilaev N.A., Onyusheva M.A., Rostislavskaya K.A.</i>	Tax audit problems in modern Russia	80
<i>Skakova T.Yu., Shlyapin A.D., Trifonov Yu.G., Kurbatova I.A.</i>	Waste recycling of aluminum alloy by chemical dispersing with obtaining aluminium hydroxide nano powder	86
<i>Timiryazev V.A., Mukhin A.V., Ivanov A.A.</i>	Adaptable control in auto-programming of cutting tool path on a numerical control lathe.....	94
<i>Ushakov V.K.</i>	Methodology of synthesis of reliableand efficient ventilation systems for occupational safety control.....	102

Earth sciences

<i>Verkholantseva T.V., Dyagilev R.A.</i>	Influence of backfilling on seismic activity in potash mines.....	115
<i>Viktorov S.D., Tyurin A.I., Kochanov A.N. and ohter</i>	Methods micro and nanoindentirovaniye for an assessment of structural and physic-mechanical properties of multiphase materials on the example of rocks	124
<i>Kovalenko A.A., Tishkov M.V.</i>	The evaluation of the Udachnaya pipe deposit underground mining using caving system	134
<i>Osipova N.V.</i>	Analysis of methods of determining the volume of surface digging for operational control excavator dragline performance in pits	146

<i>Lizunkin V.M., Volokhov A.V., Lizunkin M.V.</i> Stability analysis of the open pit sides while performing post-development works at the deposit by means of a combined method	153
<i>Kavardakov A.A., Kuzin E.G., Pudov E.Yu.</i> Experience of using GPR in the mine Kotinskaja to assess condition of preparatory mine workings.....	166
<i>Morozov A.A., Yakovlev M.V.</i> Off-balance uranium ores formed at development of the streltsovsky ore field involvement in processing	174
<i>Savitskaya E.O., Gorbatov A.V.</i> System modeling and visualization of evacuations companies in emergencies	182
<i>Nevedrova N.N., Rokhina M.G., Shalaginov A.E., Sanchaa A.M.</i> Analysis of long-term observations by method of non-stationary electromagnetic sounding (on the example of the seismoactive zone Gorny Altai).....	190
<i>Cherednik P.N.</i> establishment of a critical value of tape tension during braking of tubular conveyor.....	213
<i>Tyul'nin V.A.</i> Magnesian-composite decorative stones and high-anchor color stone coats for architectural design	220
<i>Komogortsev B.V., Varenichev A.A.</i> The use of selective collecting agents in technology flotation gold-sulfide ores	231
<i>Kochanov A.N.</i> Mechanism of fracture growth in granite under explosion load.....	243
<i>Lavrinenko A.A., Gol'berg G.Yu., Kunilova I.V. and ohter</i> Thickening of fine coal tailings with different composition using anionic and cationic flocculants.....	248
<i>Malyukov V.P., Buurulday Sh.E.</i> Physical processes of cyclic steam stimulation for the development of heavy oil fields	260
<i>Malyukov V.P., Olmaskhanov N.P.</i> environmental impact of development shale hydrocarbons.....	270
<i>Morozov V.V., Rapshis V.V., Delgerbat Loday, Khurlchuluun Ishgen</i> Advancement of visiometric analysis of ore at erdenet mining corporation	279
<i>Rakishev B.R.</i> Restructuring of production of the kazakhstan mining and metallurgical complex	293
<i>Rudenko V.V., Galiulin I.M.</i> Monitoring subsoil use hydrocarbons.....	306
<i>Starikov G.P.</i> Features of coal destruction associated with the formation of outburst zones.....	311
<i>Khachay O.A., A.Yu.</i> Khachay Simulation of seismic fields in the layered block elastic environment with plastic hierarchical inclusions	318

<i>Chernyshov A.V.</i> No-props hydraulic-powered support of stopes	327
<i>Shornikov I.I.</i> Jacking forces prediction for tunnel lining in microtunnelling technology: factor method	333

Works of young scientist

<i>Biktimirova K.A.</i> Engineering-geological provision of the horizontal directional drilling with the construction of the different underground communications under the condition of the megapolis	342
<i>Zolotova N.V.</i> The analysis of the profitability of exchange investment in gold.....	349
<i>Fedotov G.S., Zhuravlev E.I.</i> Determination of optimal energy parameters of winning assembly under different ground conditions based on cutter–loader simulation model	356
<i>Khvorov I.A., Kaymin V.G., Levchuk V.I.</i> Development mathematical algorithm for calculation productivity machining modules in small-scale production	362
<i>Chagay O.A.</i> Basic techniques and aspects of software engineering based on tree-demensional models for realtime visualization	368
<i>Shchedrova D.A.</i> Analysis of using silver in the world jewelry market.....	380

Special editions GIAB

<i>Azev V.A., Kuznetsov A.N., Senatorov D.S., Khazhiev V.I.</i> About the system of continuous improvement of production processes LLC «SUEK-Khakassia»	79
<i>Dyshin A.V., Tonkikh A.I., Osipov V.A.</i> The development of geo-resources in the Russian Far East and the Asia-Pacific region	93
<i>Shurygin D.N.</i> Methodology of mining-geometric risk assessment of subsoil use	114
<i>Tedeev T.R., Teziyev T.M.</i> The moisture permeability of the porous medium under partial water saturation	242
<i>Balek A.E., Sashurin A.D., Rasskazov I.Yu.</i> and other. Problems of integrated development of geo-resources	269
