

CONTENTS

Underground mining

- Eremenko V.A., Rylnikova M.V., Esina E.N., Louchnikov V.N.** Validation of estimation procedure for areas and values of stress concentration in mines5
- Karkashadze G.G., Ivanov Yu.M.** Technology of the directed landing of difficultly destroyed roof by hydraulic rupture of rocks through holes drilled from the tunnels.....13
- Smirnov S.M., Tatarnikov B.B., Aleksandrov A.N.** Influence of the current geodynamic mining situation on stoping-and-backfilling operations19
- Shchipachev A.S.** Safe support and operation of mine roadways in the Taldinskaya-Zapandaya-2 MINE under blasting at the Zarechny open-pit mine.....35

Open-cast

- Alekseev V.S.** Justification of rational technology parameters of formation productive zones when developing technogenic placer deposits42
- Grigoryev S.N., Morgunov I.V.** Development of mining operations at improvement of medium-sized moulds47
- Eremin G.M., Smagin A.V.** Features improvements of deposit of integrated iron ore superglobal quarry with regard to monitoring the sustainability of its board53
- Efremov A.S., Dmitriyev G.A., Afanasyev A.E.** Some features of gravitational dehydration of peat61
- Zhigulskiy M.A., Kuzmin V.A., Shpynev V.M.** Influence film coatings braking thermogenic processes and changes physical and mechanical properties of milled peat.....70
- Zaytsev S.V.** Analysis of studies to determine the stress state of the peat deposits under sealing devices76
- Kalyabina M.V., Gorfin O.S., Mikhailov A.V.** Study of drying peat moisture before burning.....80
- Stupakov S.N.** Study of the direction of mining for flat deposits using cartogram84
- Shapar' A.G., Prosandeev N.I., Romanenko A.V., Korchagin N.V.** The problem of expanding the resource base of the quarry InGOK93

Markshading

- Kirichenko Yu.V., Yakovleva T.P.** Engineering-geological and geocological aspects of search works on hydrocarbonic raw materials100
- Sekisov G.V., Cheban A.Yu., Sobolev A.A.** System of mining-and-geological features of metallic and nonmetallic deposits – objects of rational development.....106

Enrichment of minerals

- Zyurina Yu.C.** Analysis of basic trends of mining and processing integrated works in the iron ore industry113
- Krylov I.O., Yushina T.I., Epikhin A.N., Stokov A.A., Timashkov K.V.** The angle of incidence of the coal seam as a factor of spontaneous coal115
- Fedotov K.V., Senchenko A.E., Kulikov Yu.V.** Method of calculating autogenous / semi-autogenous grinding energy based on combination of the Bond work indices127

Mining cars, the equipment and transport

Ananiev K.A., Aksenov V.V., Khoreshok A.A., Ermakov A.N. The choice of geohod's drum cutter fundamental design.....	141
Zhigul'skaya A.I., Lemeshev A.V., Guseva A.M., Burmistrov I.S. Classification of machinery and equipment for the production and processing of wood resources peat deposits.....	144
Mostakov V.A. The concept of creation heading machines having crowns equipped tool rolling cutters mounted on boom	151
Pobegailo P.A. Researches of dynamics of hydraulic excavators: current state and some prospects	154
Pudov E.Yu., Grigoryev A.A. The relevance of the development of the stand for the study of technical and economic indicators of the executive body of the screw shearer	159
Sinitsyn V.F., Jafarov M.N., Oganisyan M.A. A simulation model of the machine for a summary of the stand	162
Fomin K.V., Krylov K.S., Kharlamov V.E., Kushnir M.B., Uzun D.A. The determination of loading regimes of elements of drive machines layer-by-layer surface milling at the design stage.....	167
Yablonev A.I., Krutov Y.V. Laboratory equipment for studying the interaction between hard and pneumatic wheel for vehicles with peat deposit.....	172

Aerology, methane, safety

Borisenko A.V. Wellbore methane extraction from abandoned coal mines: selection of main technological parameters	176
Shmat V.N. Degassing technology of dangerous gas coal seams in the conditions of intensive and safe extraction	185

Physics of rocks and processes

Balek A.E. Features of formation of stress state in support of vertical openings in hard rock masses in the post-limit stress-strain state	202
Lovchikov A.V., Savchenko S.N. Estimate and after-effect of stress state alteration in rocks after umbozero mine flooding	213
Miller S.O., Kholodnyakov G.A. Evaluation of scheduled open-pit mining capacity in terms of associated minerals for multi-mineral deposits	223

Measuring, control, diagnostics

Golosov A.M. Research of acoustic emission in rock samples	228
Goncharov A.I., Kulikov V.I., Etkin M.B. Acoustic effect of the kambaratinsky blast	231
Efimenko S.A., Portnov V.S., Tursunbaeva A.K., Mausymbaeva A.D. Accounting for matrix effect in x-ray radiometric analysis of base metal ores.....	242
Koltyshev V.N. Investigation into the block mining effect on the distribution of dynamic phenomena in a rock mass at the tashtagol deposit	250
Smolak V.Ya., Kravchenko P.A. Load distribution in pile-raft foundations	255
Sokolov K.O. Wavelet criterion for data analysis of GPR frozen rock	262

Fedorova L.L., Sokolov K.O., Savvin D.V., Fedorov M.P. Mapping of structural inhomogeneities bedrock on placer deposits cryolithozone by GPR method 267

Economics and management

Batashova A.F., Kodochigov V.E. Two-dimensional matrix innovation potential coal company as a tool for innovation governance 274

Galiev Zh.K., Kuleshina E.I. Comparative financial-economic analysis of activity of mining enterprises production 279

El'chaninov E.A., El'chaninova E.A. Ecological problems of mining industry growth in permafrost conditions in the course of Russia's northern territory development 284

Prosvetova A.A., Noskov V.A., Tsirel S.V. Evaluation of technical and economic efficiency of measures for safe mining operations 291

Sedykh N.K., Chaikovskaya I.N. The Ways to Improve Fiscal Policy of the Coal Mining Enterprises 297

Usov A.F., Tsukerman V.A. Problems and ways of realization of innovative technologies on the basis of the method of electro-destruction of materials 303

Explosive works

Mitkov V. New water-resistant explosives based on energy materials of dismantled ammunition 312

Electrification mining enterprise

Karyakin A.L., Bulygin D.A., Nosyrev M.B., Koryukov A.A. Parametric model of a diesel power plant 317

Stepanenko V.P. Combination (hybrid-type) power plants in mining 322

Automation and information systems

Dmitrieva O.V. The application of information technologies in the management decision-making process 329

Klebanov A.F. Analysis of initiation and development of dispatching control systems in Russia 332

Kubrin S.S., Reshetnyak S.N. Automated information-measurement system for energy registration in underground mining 337

Fedorov A.M. Topicality of artificial intelligence elements at plants with queueing networks 342

Mathematical and computer modeling

Bazdareva Z.V. Imitative simulation modelling and management of mineral and raw material complex enterprises 345

Malkin A.S., Agafonov V.V. Fundamental methods and decision-making processes in mine planning 350

Khalkechev R.K., Khalkechev K.V. Mathematical model of deformation properties of an oil-saturated reservoir 354

Khalkechev R.K., Kashirskiy A.S., Khalkechev K.V. Rupture control in materials based on mathematical modeling of stable and unstable fracture propagation 359

Works of young scientists

Antonov M.A., Oganesyana N.K., Agafonov V.V. The adaptation of methods of multivariate optimization tasks and special methods of optimization of complex systems to technological schemes of coal mines	367
Klyuev M.M. Instructional guidelines on engineering personnel performance control based on improved remuneration of labor in coal industry.....	372
Kurbanov S.A. Current status and prospects of economic development of India	382
Len'kova E.A. Design of virtual operator of special software technical support.....	393
Malyshev A.V. Practical aspects of the analysis, design and development of a data-base for automated risk analysis	403
Sergaziyeva R.R. Stock market efficiency assessment	413
Solov'ev V.G. Aspects of the design and development of 3D models quarry transport and subsequent visualization within the core processes.....	419

Preprints

Zaytseva D.I. Method of determining the economic feasibility of the oil and gas field exploitation with high degree of reserves hydrocarbons depletion	227
Maslov I.P., Semykina I.Yu., Kiselev A.V., Evstratov A.E. Research of a multi-criterial automatic control system of local ventilation fan for mines.....	230
Maslov I.Yu., Gorinov S.A. Low-density emulsion explosives: technological aspects of manufacture and application	353

The deposited manuscripts

Golotvin A.D., Kokarev K.V., Shirokov M.A. Studies of rock pressure models from equivalently materials	18
Golotvin A.D., Osintsev V.A., Kokarev K.V., Shirokov M.A. Assessment of the relative strength of rocks	336
Zhigul'skaya A.I., Yakonovskaya T.B., Korniliev E.O. Peat production as an element of mining system	358
