Geotechnology (underground, open and construction)

<i>Gavrishev S.E., Zalyadnov V.Yu., Bikteeva N.S.</i> Areas of diversification for a mining company	5
<i>Danilov O.S., Belov A.V., Grebenyuk I.V.</i> Ash and slag waste processing with extraction of rare metals as a key factor of social, economic and ecological well-being in coal mining countries	16
<i>Makal'skiy L.M., Kukhno A.V., Tsekhanovich O.M.</i> Mine water treatment by electrical discharge to reduce salinity	23
<i>Maksimov D.A.</i> Deficiency of current methods for improvement of filtration stability of rock-fill waterworks in mining.....	33
<i>Rozanov I.Yu., Zavyalov A.A.</i> Application of IBIS FM radar to pit wall monitoring at Zheleznny open pit mine of Kovdor Mining and Processing Plant	40
<i>Sencus V.V., Abramkin N.I., Sencus Val.V.</i> Features of accessing coal beds in hybrid mining	47
<i>Uvarova V.A.</i> Ecological properties of polymers involved in new coal mining technologies	54

Mine aerogasdynamics

<i>Kachurin N.M., Ermakov A.Yu., Sencus Val.V.</i> Theoretical justification of phenomenological law of gas flow resistance in rock mass	61
<i>Malashkina V.A.</i> Coal mine degasification efficiency enhancement to improve working conditions of miners	69

Markshading

<i>Tatarinova O.A.</i> Evaluation of method to gain access to coal deposit areas	76

Mining machinery and equipment

<i>Asatryan D.A., Arutyunyan S.S.</i> Machine and technology of cutting regular-shape face stone in mountainous countries	89
<i>Volkova L.P., Kostin V.N., Pankrushin P.Yu.</i> Reengineering of algorithm for mining plough parameters to improve its maneuverability in the plane of a seam	99
<i>Gorelova A.Yu., Kristal M.G.</i> Formation of working errors in making holes of hydraulic cylinder barrels as the technologically hereditary characteristic of work piece manufacturing error	108
<i>Danilov B.B., Rechkin A.A., Cheshchin D.O.</i> Experimental positioning of controllable pneumatic piercing machine pivot.....	116
<i>Mulukhov K.K., Beslekoeva Z.N.</i> Serpentine tubular wheel-and-belt conveyor for no-reloading haulage along spatially curved route	124
<i>Khrutskiy A.A., Oshchepkov V.S.</i> Computer modeling of DTH hammer P-110 operation	131

Enrichment of minerals

<i>Wen Yafeng, Izabaev U.D., Ukubaev A.K., Zavarukhina E.A.</i> Introduction of selective copper sulphide leaching from gold concentrate.....	139
<i>Kalyuzhnaya R.V.</i> Optimization of magnetic-gravity separation parameters based on the studies of interparticle magnetic interaction in magnetically stabilized liquefied layer.....	146
<i>Pestryak I.V.</i> Development and justification of efficient methods for recycling water conditioning at processing plants.....	153

Mining industrial geology

<i>Petrochenkov D.A.</i> Jewelry-quality Modiroval ammonite, Madagascar	160
<i>Petrochenkov D.A.</i> Jewelry-quality wood tin of Dominion Creek placer, Canada	169

Rock failure

<i>Kamyansky V.N.</i> Estimation of seismic load of blasting on pit wall rock mass during blasted slot making	181
<i>Alenichev I.A.</i> Rock mass response to dynamic effect of blasting in the area of open pit mine	189

Production organization and management in mining

<i>Alborov I.D., Petrov Yu.S., Zorina I.Yu.</i> Principles of energy supply of mining enterprises using natural energy resources of mountain provinces.....	196
<i>Lapshin N.S., Vinogradov I.P., Dzyurich D.O.</i> Analysis of development trend in the market of nonmetallic constructional materials in the Russian Federation	205

Fire and industrial safety in mining

<i>Ermakov A.Yu., Kachurin N.M., Sencus Val.V.</i> Systemic approach to coal mine ventilation safety based on air/gas dynamics control	212
<i>Musina V.R.</i> Geodynamic position of burning coal-and-rock dump at Nesvetaevskaya Mine.....	219

Special editions GIAB

<i>Bui Trung Kien, Kubrin S.S., Bui Thi Thuy Hang</i> Modernization and optimization of the work of transport of Hongthai – Vietnam mine in the conditions of explosive coal treatment	15
<i>Artemenko S.I.</i> Labor potential as a factor of increasing labor productivity	53
<i>Avksentiev S.Yu., Serzhan S.L., Trufanova I.S.</i> Determination of parameters of hydraulic tailings beneficiation of iron ore in Kachkanar GOK.....	88
<i>Temkin I.O., Do Chi Thanh, Agabubaev A.</i> On some algorithms for the functioning of the analytical platform in the ventilation management system of the methane-mining mine	130
<i>Turtygina N.A., Okhrimenko A.V., Koval'chuk A.A., Kalashnikov K.A.</i> Planning of mining works as organizational method of quality management for mineral raw materials in mining system.....	211
<i>Gusev V.N., Maluhina E.M., Ilyukhin D.A. etc.</i> Obtaining analytical models and calculation methods applicable to solving surveying problems.....	218

The deposited manuscripts

<i>Slobodnyak T.M., Nikitina O.A.</i> Planetary gears design for mining machines.....	46
<i>Khakulov V.A., Shogenova Z.A., Al-Mutavakel A.I.</i> Improvement of current designing of mining works based on remote monitoring technical condition of mining equipment.....	60
<i>Slobodnyak T.M., Nikitina O.A.</i> Economic drives for mining machinesdesign.....	115
<i>Kozhevnikov N.A., Petrov G.M.</i> The study of electrical networks career «Neverovo» with grounding system TN-C.....	159
<i>Mikhailov A.V., Dzhafarov K.A.</i> Justification of wrench-rotary methane parameters for fitting mill straps.....	168
<i>Zlobin D.A.</i> Modernization of power lines in an integrated substation	188
