

CONTENT

Geocology

- Silyutin S.A., Epshtein S.A., Gushchina T.O.* Wastes from coal mining and processing. Methodological approaches to the assessment of their ecological safety and directions for use. Part 2. Methods for the determination of mobile forms of macro- and microelements in the wastes of coal mining, processing and combustion.....5
- Vishnevskaya E.P., Nikolayev A.A., Dobryakova N.N., Bannikov A.A.* Methods for assessing the wettability of coal with dust suppression solutions.....17
- Kamnev E.N., Karamushka V.P., Seleznev A.V., Morozov V.N., Hiller A.* Ecology of uranium mine closure: problems and solutions (in terms of Russia, CIS countries and Germany)26
- Moseykin V.V., Kharitonova M.S.* Geological, ecological and resource-saving surveys of tailings storage facilities of Erdenet Mining Corporation40

Geotechnology

- Aghabalyan A.Yu.* Systematization of natural factors and justification of an open pit expansion in hilly areas54

Mining machinery

- Bolobov V.I., Le Thanh Binh, Chupin S.A., Plashchinsky V.A.* Dependence of the lifelength of a hydraulic hammer pick on the wear resistance of its material.....68
- Yedygenov Ye.K., Vasin K.A.* Test data of electromagnetic hammer for non-explosive rock fracturing.....80

Geomechanics, Rock failure

- Eremenko V.A., Aksenov Z.V., Pul E.K., Zakharov N.E.* MAP 3D analysis of secondary stress field structure in face area of development headings in rockburst-hazardous seams91
- Pavlov A.M.* Prediction of geomechanical behavior of deep-level rock mass in the Zun-Kholba deposit105
- Raimjanov B.R., Khasanov A.R.* Ratings of structural rock mass quality for Zarmitan gold mines115
- Protosanya A.G., Iovlev G.A.* Prediction of spatial stress-strain behavior of physically nonlinear soil mass in tunnel face area128

Enrichment of minerals

- Aleksandrova T.N., Ushakov E.K., Orlova A.V.* Method of complex copper-zinc ore typification using neural network models140
- Kayumov A.A., Aksenova D.D., Belokryz M.A., Malofeeva P.R.* Theoretical and practical key points of the tennantite-bearing sulfide ore flotation148

Geoinformatics

- Nekrasov G.A., Polivoda D.E., Prokofeva E.N.* Sources of spatial data in advancing technologies of subsoil use164

Special editions MIAB

- Nasonov M.Yu., Do Duc Truong* Criterion for decommissioning excavators to accumulate damage after the expiry of normative life53
- Fedotov G.S., Pastikhin D.V.* Features of designing the final contours of a quarry in mining and geological information systems79
- Chunuev I.K., Bolotbekov Zh.* Geotechnical aspects of the development of mountain deposits and hydropower facilities163
