

CONTENT

Geomechanics, Rock failure

- Osipov Yu.V., Koshelev A.E., Voznesenskii A.S.** Experimental studies of the bischofite deformation properties.....5
- Morozov I.A., Udarcsev A.A., Pankov I.L.** Laboratory deformation testing of salt rocks from the Gremyachinsk and Upper Kama deposits.....16
- Shevkun E.B., Leshchinskiy A.V., Lysak Yu.A., Plotnikov A.Yu.** Long-period delay loosening blasting in open pit mines29

Geotechnology

- Khayrutdinov A.M., Kongar-Syuryun Ch.B., Kowalik T., Tyulyaeva Yu.S.** Stress-strain behavior control in rock mass using different-strength backfill.....42

Geoecology

- Tsukerman V.A., Ivanov S.V.** Environmental policy of resource corporations in commercial mineral production in the Arctic Zone of Russia56

Mining industrial geology, Mining geophysics

- Kutepova N.A., Kutepov Yu.I., Kudashov E.S., Daniliev S.M.** Strength of phosphogypsum mixed with nepheline slime in construction of embankments of gypsum ponds67
- Sidorova G.P., Avdeev P.B., Yakimov A.A., Manikovskiy P.M.** Presence of metal elements in Transbaikal coals.....79

Mining machinery

- Shibanov D.A., Ivanov S.L., Yemelyanov A.A., Pumpur E.V.** Evaluation of working efficiency of open pit shovels in real operating conditions.....86

Enrichment of minerals

- Melekhina K.A., Ananyev P.P., Plotnikova A.V., etc.** Modeling and optimization of complex ore pretreatment by disintegration in autogenous mills95
- Rasskazov I.Yu., Sekisov A.G., Rasskazova A.V., Sobolev A.A.** Justification of application field and technological parameters of selective heap gold leaching in open pit mining of complex-structure deposits106
- Fat'yanov A.V., Nikitina L.G., Shcheglova S.A.** Improvement of processing efficiency for carbonate-fluorite ore of the Transbaikal-Mongolia province.....115
- Elbendary A.M., Aleksandrova T.N., Nikolaeva N.V.** Optimizing reagent regime in apatite-nepheline ore processing123

Theoretical bases of designing of mining-technical systems

- Galkin A.F., Kurta I.V., Pankov V.Yu.** Comparison of heat flows in underground openings of plane and spherical symmetry.....133

Geoinformatics

Galiev S.Zh., Galiev D.A., Uteshov E.T., Tekenova A.T. A framework for the information technology platform for operations and facilities management in mines	142
---	-----

Safety in emergency

Portola V.A., Zhdanov A.N., Bobrovnikova A.A. Spontaneous ignition of coal pile.....	155
---	-----

Labor protection in mining

Vishevskaya N.L., Liskova M.Yu., Plakhova L.V. Personnel physiology and hygiene, and occupational health and safety maintenance in deep mines: Problems and solutions	163
--	-----

Special editions MIAB

Tret'yak A.A., Litkevich Yu.F., Grossu A.N. Simulation-model investigation of iron ore washing-out and intaking in the flooded working excavation	15
Team of authors Safety and geoecology in mining	66
Yungmeister D.A., Korolev R.I., Borodkin E.O., etc. Justification of the design of devices for deep-sea mining	114
Ushanova S.E., Ziborova E.Yu. Increasing the durability of friction units for mining equipment and conveyor transport.....	122
Fedotov G.S., Pastikhin D.V. Pit optimization considering the deposit stripping method for Mining and Processing Plant named after V. Grib	132
Alekseev V.Y., Sidorenko A.A. Analysis of classifications of geodynamic processes based on evaluation of the energy balance	175
Ulrikh D.V., Greyz G.M. Analytical methods of evaluating the effectiveness of technologies for recovery of environmental conditions of geotechnical systems of the Southern Urals	176
