

CONTENT

Mining industrial geology, Mining geophysics

- Anciferov A. V., Tumanov V. V., Novgorodceva L. A., Borodin D. S., Shalovanov O. L.** Features of the deep geotectonic structure of the Donbas with consideration of anomalous gas manifestations and methods for their geophysical investigation.....5
- Khakimov Sh. I., Tadjiev Sh. T., Kobilov O. S., Giyazov O. M., Yermekboyev U. B.** Development of technological schemes with the creation of artificial pillars under difficult geomechanical conditions of vein deposits 19

Geomechanics, Rock failure

- Karasev M. A., Otkupshchikova I. A., Rysin A. I., Lebedeva A. M., Nurtdinov A. S.** Investigation of influence of clay inclusions and insoluble residue content on rib pillar stability by numerical modeling of stratified media in terms of potash deposits 33
- Sarybaev M. A., Zhanakova R. K., Almenov T. M., Shautenov M. R., Assylkhanova S. A.** Geomechanical substantiation of mechanical splitting parameters of marbled limestones taking into account their fracturing and strength 52

Geoecology

- Apakashev R. A., Malyshev A. N., Lebzin M. S., Kurmacheva V. S.** Application of industrial waste in the development of composite heavy metal sorbents to ensure the environmental sustainability of soil systems 78
- Fomenko V. A., Rudnitsky D. Y., Plakhotin D. A., Bashmashnikov I. I., Kovaliev G. S.** Dynamics of geoecological condition of manmade massif and substantiation of transition to predictive control: A case-study of the Unal tailings dam.....95

Markshading, Geometry of subsoil

- Filippov V. G., Kuzin A. A.** Spatial method for assessing the stability of reference geodetic networks used to monitor deformations of structures and ground surface.....106

Mining machinery

- Ivanova E. S., Ivanov S. L., Korogodin A. S., Plaschinsky V. A.** Reliability of lubrication systems for mining and processing equipment 123

Enrichment of minerals

- Redushev A. A., Kozlov N. I., Tsiganov A. E.** On the issue of vibratory and shock characteristics of accelerometer for shock-vibratory loads measurement during rock grinding in different types of mills 145

Technosphere safety in mining industry

- Barsegian E. A.** Methane emission control in coal longwalls with multi-entry development 156
- Kolvakh K. A., Babkin R. S., Duka N. E., Stepantsova A. Yu., Dolbilina V. S.** Development of a protective suit against exposure to low temperatures 169
