

CONTENT

Geotechnology (underground, open and construction)

<i>Silyutin S.A.</i> General provisions of classification of coal mining and processing refuse as an origin of environmental impact when stored and as a source of process raw materials when recycled.....	5
<i>Kislitsyn M.S., Yaroshenko V.V.</i> Prospects of oil mining at Yarega field.....	12
<i>Nabatov V.V., Gaysin R.M.</i> Handling of GPR data on voids in annular space	19
<i>Nasonov A.A.</i> Effective geotechnology sinking ultra-deep vertical shafts	26
<i>Pleshko M.S., Pleshko M.V., Voynov I.V.</i> Estimation of technical state of long-term service railway tunnels	34
<i>Raimjanov B.R., Muhitdinov A.T., Bekmurzaev B.B., Khasanov A.R.</i> Evaluation and selection of deeper level ore mining systems for Zarmitan mine.....	41
<i>Turtygina N.A., Babaev R.E., Volkov N.A., Karpenko I.O.</i> Improvement of mining quality in case of convergence in underground openings	50

Geomechanics

<i>Basov R.K., Keropyan A.M.</i> Justification of topicality of the continuous control over railtrack running surface geometry in open pit mines	58
<i>Eremenko A.A., Gakhova L.N., Konurin A.I., etc.</i> Geomechanical assessment of rock mass in mining two closely spaced ore body at Sheregesh Deposit	67

Mine aerogasdynamics

<i>Lipchanskiy A.Yu., Zhatkin A.N.</i> Analysis of air power supply efficiency in terms of compressed air consumers in Gaisky GOK mine.....	76
---	----

Mining industrial geology

<i>Abramkin N.I., Miroshnichenko K.S., Dorodniy A.V.</i> Justification of efficient recycling and neutralization methods for municipal solid waste using promising geotechnologies	83
<i>Sidorova G.P., Ovcharenko N.V.</i> Assessment of radiological situation in the area of Urtui open pit lignite mine.....	92

Mining geophysics

<i>Kochanov A.N.</i> Some background to rockburst prediction by submicron particle emissions	101
<i>Romanov V.V., Malskiy K.S., Poserenin A.I., Dronov A.N.</i> Determination of seismic wave attenuation in rocks surrounding underground excavations	110
<i>Cherdantsev S.V., Lee Khi Un, Filatov Yu.M., Shlapakov P.A.</i> Determination of critical ignition temperature of micro-heterogeneous dust/gas-air mixtures in mines	117

Mining machinery and equipment

<i>Afanasiev A.I., Suslov D.N.</i> Evaluation of energy efficiency of resonance conveyor vibration exciters.....	126
<i>Busygin A.M.</i> The force analysis of the caterpillar excavator stick arrangement mechanism with three degrees of freedom.....	133
<i>Gorbatyuk S.M., Zarapin A.Yu., Chichenev N.A.</i> Retrofit of vibrating screen of Catoca Mining Company (Angola).....	143
<i>Eremenko Yu.I., Poleshchenko D.A., Tsygankov Yu.A., Borovinskiikh M.D.</i> Identification of ball mills by operation data	150

Ovchinnikov N.P. Experimental research of effect exerted by various degree hydro-abrasive wear of impeller elements on vibrations in electrically driven pump.....	158
Trifanov M.G., Shishlyannikov D.I., Ivanov S.L. In-situ estimation of drive loads in Ural heading-and-winning machines	166
Ushakov L.S., Kamanin Yu.N., Klimov V.E. Optimization of rock mass breaking by planetary percussive shearing	175
Yablonev A.L. Digital strain gauging in lab test of peat surface mining process.....	182

Enrichment of minerals

Gubaydullin V.M., Brigadin I.V., Zyryanov V.V., Samoylov A.V. Autoprocessing of micron size particles of granite.....	190
--	-----

Theoretical bases of designing of mining-technical systems

Aristov A.O. Theoretical and applied baseline for application of quasi-cellular nets in computer modeling and visualization of transport logistics in open pit sand mine	201
Valuev A.M. Problem-oriented approach to add-in optimization programs for mine planning and design software	215
III national mining forum: the stability of the mineral-raw material market reached	224

Special editions GIAB

Shevyreva N.Yu. Application of active front end during operation of drilling rigs.....	11
Baisarov R.S. The development of scientific approaches to a substantiation of project solutions of large-scale coal deposits.....	33
Team of authors Proceedings of the International scientific Symposium «Miner's Week-2017».....	109
Team of authors Experience of management of JSC «Razrez Tugnuisky».....	116
Team of authors Information technology in the implementation of environmental strategy for development of the mining industry.....	125
Team of authors Role of manger and personnel in industrial safety maintenance	132
Team of authors Geomechanical and geotechnological problems of development of mineral resources of the North.....	181
Tesalovskiy A.A. Land surveying in the USA after the American revolutionary war	214
Le Thanh Binh, Bolobov V.I., Nguyen Khac Linh Influence of cryogenic treatment on mechanical properties and wear resistance of materials of hydraulic breakers chisels	230
Team of authors Industrial safety of enterprises of mineral-raw complex in the XXI century. Vol. 1	231
Team of authors Industrial safety of enterprises of mineral-raw complex in the XXI century. Vol. 2	231

Deposited manuscripts

Pichuev A.V., Karpenko Predictive S.M. Modelling the electrical load of electrical installations career.....	227
Karpenko Predictive S.M. Modelling the electrical load of electrical installations career.....	228
Pichuev A.V., Karpenko Energy S.M. Efficiency of technological processes of mining production taking into account ecological load on the environment	229
